Press Release 1/17/16

Lone Star Blower, Inc announces Fluid Technology as it's exclusive representative in the Colorado, Utah, Wyoming markets.

“ Fluid Technologies has long been held in high esteem in their respective market for the past 30 years and is known well for the high level of service they bring to their customers. We believe this is a good fit to both represent all our products to the market but also a good fit to our service first philosophy. “ James Cook VP Sales at Lone Star Blower.

Josh Stockwell – President of Fluid Technology “ We see a great partnership built on long standing relationships we have had with the owners of Lone Star. The service to our customers is paramount with all the companies we represent, but also the highly efficient and reliable product portfolio of turbo blowers Lone Star offers will serve our markets well.”

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems located in the Houston Texas USA. Products will include single stage turbo blowers (both gear driven and gearless), vertically split multistage turbo, and related blower control systems. Lone Star also services many other brand blowers.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.

Lone Star is now looking for agents and distributors starting in the North and South American markets.
