Press Release 7/15/16

Lone Star Blower, Inc announces TDH Company as it's exclusive representative in the municipal water and wastewater markets in Alabama, Georgia and portions of Florida and Tennessee.

Holman Waters – TDH Company “ Lone Star offers a complete product portfolio centrifugal blower technologies to fully complete our product offering. Now we can always apply the right technology for the right application and environment. Combine this with Lone Star’s previous experience in the blower industry and also the municipal market itself, we expect great things. “

“We are pleased and very fortunate to partner with TDH. With more than 35 years of experience in their respective markets and a fantastic reputation we could not have found a better group to work with. Our common interest in high customer service combined with and our passion for bringing proven efficient technologies to the market makes for a great match “Andrew Balberg – President at Lone Star Blower.

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems located in the Houston Texas USA. Products include single stage turbo blowers (both gear driven with variable inlet and discharge guide vane and gearless driven with a permanent magnet motor), vertically split multistage turbo, and related blower control systems. Lone Star also services many other brand blowers.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.

Lone Star is now looking for additional agents and distributors starting in the North and South American markets.
