Press Release 5/6/16

Lone Star Blower, Inc announces Treatment Equipment Company (tec) as its exclusive municipal water and wastewater market representative in the US States of Washington, Oregon, and Northern Idaho.

“With great pleasure Lone Star is proud to announce our partnership with Treatment Equipment Company. Our industry leading technologies combined with our shared “customer first” commitment makes for an excellent team “Andrew Balberg - President at Lone Star Blower. Since 1969 Treatment Equipment Company has been providing their clients with the most innovative and cost-effective treatment solutions available

Dennis Gleason– President of Treatment Equipment Company “We see a great partnership built on long standing relationships we have had with the owners of Lone Star. The service to our customers is paramount with all the companies we represent, but also the highly efficient and reliable product portfolio of turbo blowers Lone Star offers combined with our positive displacement product line is now the most complete in our market and will serve our customers well. We can provide the right technology for each and every application.”

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems located in the Houston Texas USA. Products will include single stage turbo blowers (both gear driven with variable inlet and discharge guide vanes and gearless direct drive with permanent magnet motors), vertically split multistage turbo, and related blower control systems. Lone Star also services many other brand blowers.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.

Lone Star is now looking for agents and distributors starting in the North and South American markets.
