Your ONE Solution for Blower Systems

Customer Service Matters!

Part of Lone Star being 'Your ONE Solution for Blower Systems' is not just providing excellent service of our own product lines, but also fully supporting other brands of blowers. Lone Star manufactured aftermarket parts and engineering expertise allow us to provide any service our customers need. Try Lone Star as your alternative to the original equipment manufacturer!

Our staff, with more than 5,000 installations over 20 years, has experience to not just repair a blower, but to look deeper into the root cause and offer a sustainable solution. We look at the complete system including performance requirements, controls integration, and the site environment to bring real application engineering as a value added service to our customers.

Services Provided:

Factory Services	Field Service	Products
<ul style="list-style-type: none">• Worldwide Blower Repair• Root Cause Analysis• Change Performance (Re-rate)• Balancing• Full Load Test Facility• Performance Test ASME, API, ISO• Hydrostatic Testing• Overspeed Testing• Positive Material Identification• Sandblast and Paint• Door-to-Door Service	<ul style="list-style-type: none">• Emergency Response Team• Predictive Maintenance• Preventative Maintenance• Control System Troubleshooting• Vibration Analysis• Laser Alignments• Root Cause Analysis• Operator Training• Field Testing• Lubricant Analysis	<ul style="list-style-type: none">• Rental Blowers• Lone Star Parts• Remanufactured Replacement Blowers• Star Lube – Lubricants• Lone Star Blower Systems• Lone Star Control Systems• Lone Star New Replacement Blowers

*Lone Star has no affiliation to the brand's represented above.

Warranty You Can Trust:

Our high standards of quality and testing requirements allow all serviced equipment to receive a 1 year warranty, just as if it were a new blower. You will not find this with a general repair center.

Emergency Response:

We can respond on a 24-hour basis to any emergency. Whether you need repair, field service or immediate rental blowers, give us a call.

Factory Services

Let Lone Star factory services come to you with our door-to-door service!

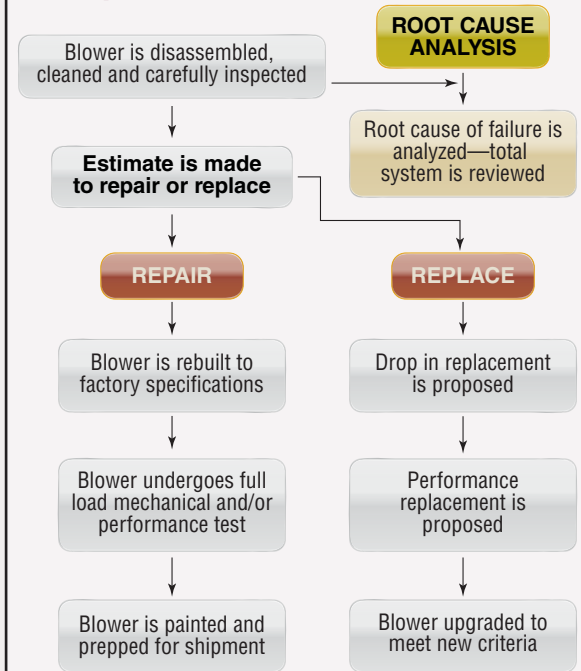

As a blower manufacturer, our factory specialists are trained in various blower technologies. Our repair process starts with a detailed disassembly and inspection. Beyond a repair, our application engineers work to find out the cause of failure and provide solutions to avoid future downtime.

All repaired or replaced products leave our factory with a same-as-new warranty and are fully tested and documented to ensure maximum reliability.

Complete blower repair and overhaul experts from Lone Star are ready to service your next project:

- Inspection
- Disassembly and Inspection Report
- Liquid Penetrant
- Magnetic Particle
- Ultrasound
- Borescope
- OES and XRF Material Identification
- Specialized Coatings for Gas
- Sound Testing
- Balancing
- Fabrication
- Machining
- Overspeed Testing
- Hydrostatic Testing
- Performance Testing

Repair Process

Field Services

Geared Turbo

This technology has precision maintenance and service requirements that should only be done by experienced field professionals, often referred to as class 1, 2, or 3 preventative maintenance inspections or complete onsite repairs. As a manufacturer of this technology, we have the full engineering support to not only repair the core, but to troubleshoot the entire blower and control system.

Multistage Turbo

Preventative maintenance, bearing and seal changes, and troubleshooting are common field services performed by our experienced technicians. They are backed by a full factory repair center with a large stock of parts ready for immediate shipment.

Types of on-site field services available:

- Preventative Maintenance
- Troubleshoot and Root Cause Analysis
- On-Site Repair
- Vibration Analysis
- Laser Alignment
- Local Start-up and Installation Commissioning
- Operator and Maintenance Training
- Turnkey Projects

Let Lone Star field services come to you with industry leading experienced technicians.

Aftermarket Products

Parts and Repair Kits

Lone Star manufactures its own parts for other brands of blowers and keeps a large stock for immediate shipment. Repair kits, bearing housings, seals, impellers, shafts or even complete drop in replacements are available if needed.

Starlube® Lubricants

Lubricant technology has advanced significantly to both extend life and lower maintenance intervals. Lone Star can upgrade your systems to the best synthetic lubricants available.

Blower Rentals

Lone Star has a full rental fleet of blowers for both emergency response or long term needs. Whether it's Air, Gas, Pressure or Vacuum, we can provide a complete system with starter and controls or provide a drop in replacement to your current blower.

Remanufactured Blowers

Lone Star can offer a drop in replacement blower that is parts interchangeable to your current blower. These units typically have an all new rotating assembly built with factory certified used cast iron. Replacements for popular Hoffman, Lamson, H.S.I. brands are readily available with fast shipments.

Sell Us Your Blower

Lone Star buys unwanted blowers in any condition. Call us today and we will make you an offer and pick them up at your location.
