- Modern Facility
- Blower Repair and Overhauls
- Performance and Mechanical Testing
- Vibration Analysis and Balancing
- Re-rating
- Parts
- Replacement Blowers
- Blower Control Systems
- Service Commitment and Warranty

Blower Repair/Overhauls

Modern Facility

Our modern 18,000 sf facility has 15 ton crane capacity, test stand, and has all machine services locally.

Blower Repair and Overhauls

All repairs meet or exceed original OEM requirements. Our detailed procedure has documentation and reporting that is the most modern in our industry. Let us show you the difference.

Performance and Mechanical Testing

All blowers are full load tested at maximum power and delta pressure. Lone Star can optionally performance test the blower according to ASME PTC 13, ASME PTC 10, ASME PTC 9, ISO 1217, ISO 5389.

Vibration Analysis and Balancing

A full spectrum analysis is base-lined on all tested blowers and documentation is sent with the blower to compare at start up. Balancing is done both on individual components and complete assembly.

Re-rating

Lone Star can engineer a new performance to your existing machines with alternative impellers, modified design, or supply a control system upgrade.

Parts

Lone Star carries a large inventory of both Lone Star manufactured parts and OEM parts to keep response times faster.

We specialize in the following blower brands (and more) for Air/Gas in Pressure/Vacuum applications

Integrally Geared Turbo	Multistage Centrifugal	Positive Displacement Lobe
Turblex Siemens Dresser-Roots Atlas Copco	Hoffman Lamson Gardner Denver Spencer HSi	Roots Sutorbilt Gardner Denver DuroFlow Aerzen Tuthill

Lone Star has no affiliation to the brands represented above and is strictly an aftermarket service company. Any and all warranties expressed are solely from Lone Star.

Replacement Blowers

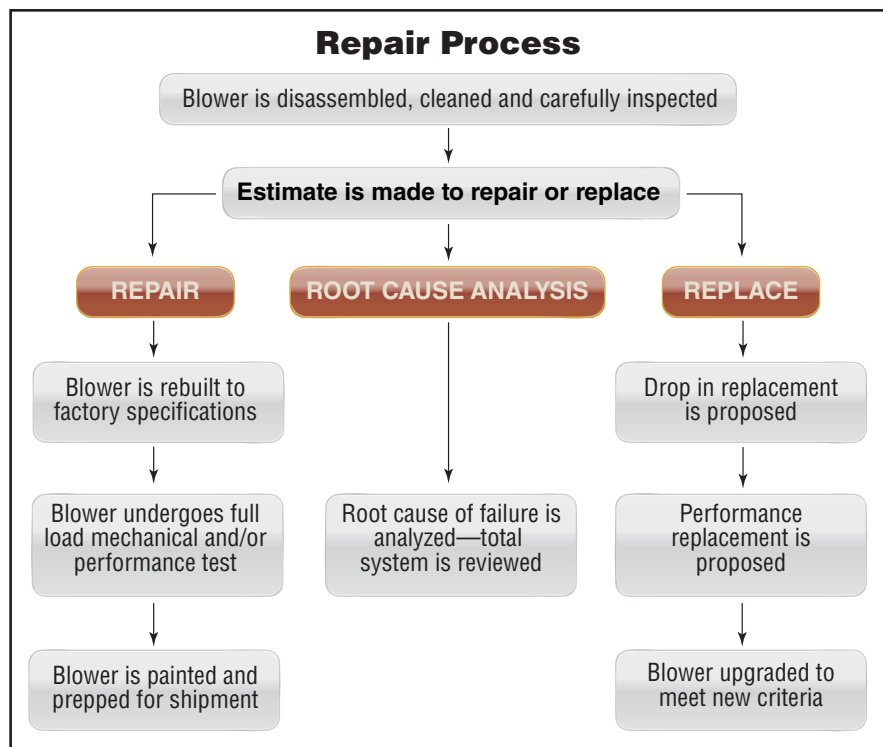

See our complete line of new blowers at www.lonestarblower.com or ask about sourcing a remanufactured unit or even a long term rental options as well.

Blower Control Systems

Lone Star designs and manufactures control systems to protect your investment and increase performance and reliability for all blower technologies.

Service Commitment and Warranty

Customer Service Matters! We are owner operated and managed with most of our staff are stock holders. We have vested interest in a long term relationship with our customers.
