AM Aftermarket Services

Your ONE Solution for Blower Systems
Service • Parts • Rentals • Overhauls
Lone Star is more than just a Service Company
We are Your OEM Replacement

Part of Lone Star being ‘Your ONE Solution for Blower Systems’ is not just providing excellent service of our own product lines, but also fully supporting other brands of blowers. Lone Star manufactured aftermarket parts and engineering expertise allow us to provide any service our customers need. Try Lone Star as your alternative to the original equipment manufacturer!

Our staff, with more than 5,000 installations over 20 years, has experience to not just repair a blower, but to look deeper into the root cause and offer a sustainable solution. We look at the complete system including performance requirements, controls integration, and the site environment to bring real application engineering as a value added service to our customers.

Warranty You Can Trust:

Our ISO 9001 documented high standards of quality and testing ensure all work is done just like our new blower manufacturing. From our 6,000 hp capable test stand to our detailed documentation.

Emergency Response:

We can respond on a 24-hour basis to any emergency. Whether you need repair, field service or immediate rental blowers, give us a call.
Factory Services

Let Lone Star factory services come to you with our door-to-door service!

As a blower manufacturer, our factory specialists are trained in various blower technologies. Our repair process starts with a detailed disassembly and inspection. Beyond a repair, our application engineers work to find out the cause of failure and provide solutions to avoid future downtime.

All repaired or replaced products leave our factory with a same-as-new warranty and are fully tested and documented to ensure maximum reliability.

Complete blower repair and overhaul experts from Lone Star are ready to service your next project:

- Inspection
- Disassembly and Inspection Report
- Liquid Penetrant
- Magnetic Particle
- Ultrasound
- Borescope
- OES and XRF Material Identification
- Specialized Coatings for Gas
- Performance Testing
- Sound Testing
- Balancing
- Fabrication
- Machining
- Overspeed Testing
- Hydrostatic Testing

![Repair Process Diagram]
**Field Services**

**Geared Turbo**

This technology has precision maintenance and service requirements that should only be done by experienced field professionals, often referred to as class 1, 2, or 3 preventative maintenance inspections or complete onsite repairs. As a manufacturer of this technology, we have the full engineering support to not only repair the core, but to troubleshoot the entire blower and control system.

**Multistage Turbo**

Preventative maintenance, bearing and seal changes, and troubleshooting are common field services performed by our experienced technicians. They are backed by a full factory repair center with a large stock of parts ready for immediate shipment.

**Types of on-site field services available:**

- Preventative Maintenance
- On-Site Repair
- Troubleshoot and Root Cause Analysis
- Control System Services
- Software Upgrades
- Vibration Analysis
- Laser Alignment
- Start-up and Installation
- Operator and Maintenance Training

*Let Lone Star field services come to you with industry leading experienced technicians.*
Aftermarket Products

Parts and Repair Kits
Lone Star manufactures its own parts for other brands of blowers and keeps a large stock for immediate shipment. Repair kits, bearing housings, seals, impellers, shafts or even complete drop in replacements are available if needed.

Starlube® Lubricants
Lubricant technology has advanced significantly to both extend life and lower maintenance intervals. Lone Star can upgrade your systems to the best synthetic lubricants available.

Blower Rentals
Lone Star has a full rental fleet of blowers for both emergency response or long term needs. Whether it’s Air, Gas, Pressure or Vacuum, we can provide a complete system with starter and controls or provide a drop in replacement to your current blower.

Remanufactured Blowers
Lone Star can offer a drop in replacement blower that is parts interchangeable to your current blower. These units typically have an all new rotating assembly built with factory certified used cast iron. Replacements for popular Hoffman, Lamson, H.S.I. brands are readily available with fast shipments.

Sell Us Your Blower
Lone Star buys unwanted blowers in any condition. Call us today and we will make you an offer and pick them up at your location.
