Press Release 11/21/15

Lone Star Blower, Inc announces Power and Pump as it's exclusive sales representative in the industrial markets in the Florida region. Headquartered in Jacksonville, FL, Power and Pumps will be a regional service center to support Lone Star products.

"We are honored to be working with Power and Pump in the state of Florida. Their reputation and experience across many industries will complement our product range in the blower market. The added benefit of having an established regional service center will also promote our service first philosophy to our customers" Andrew Balberg – President Lone Star Blower

Tony Comer – Sales Manger of Power and Pumps "We see a great opportunity to bring industry leading centrifugal blower technologies to complement our current product offering. We now offer all possible blower and exhauster technologies to our customers in air, gas, pressure and vacuum. Partnering with Lone Star offers our customer an experienced group that knows our markets and never forgets their commitment to service. "

Lone Star is a Manufacturer, Master Distributor, Packager, and Service company for blower and blower control systems located in the Houston Texas USA. Products will include single stage turbo blowers (both gear driven and gearless), vertically split multistage turbo, and related blower control systems.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas Mining, and many others using compressed air or gas, pressure or vacuum applications.
