PRESS RELEASE: LONE STAR ANNOUNCES GC-SERIES CENTRIFUGAL COMPRESSOR PRODUCT LINE

Lone Star Houston Texas USA has launched a centrifugal compressor product line for air or gas services. Product range will include 9 standard models from 200hp to 13,000 hp and up to 1,100 PSIG with ability to offer standards to API617, API672, API614 or custom engineered solutions.

This product line is offered with an agreement with SêAH Engineering with the option to package, build, test, set up distribution and service of the **CHORUS** product line in the Americas.

“This was a natural evolution for Lone Star to offer new centrifugal compressors as we already manufacture a single stage integrally geared turbo blower to meet API 617, 672 standards and our 6,000 hp test stand meets performance test codes ASME PTC-10 and ISO-5389. Combining our deep technical knowledge and modern factory here in Houston with a 30 year proven product line from SêAH, we can offer our market advanced technology along with the best service and support in the industry.” - HP Kim Business Development Director.

Andrew Balberg - President “Lone Star has a **service first** mindset as a new equipment manufacturer. While we manufacture new machines, we also completely support other brands as an OEM alternative to service our customers. With Lone Star manufactured parts, Lone Star manufactured control systems, re-rates, overhauls, field service for all other brand centrifugal compressors along with a large rental fleet we offer a total solution like no other in the market.”

| Centrifugal Compressors | Single Stage Blowers | Multistage Blowers |
|-------------------------|----------------------|--------------------|
| IR Centac | Turblex | Hoffman |
| Joy | Siemens | Lamson |
| Cameron | Roots | Gardner Denver |
| Hanwha | Howden | H.S.I. |
| IHI Sullair | Atlas Copco | Continental |
| FS-Elliott | Kawasaki | Spencer |
| Atlas Copco | | Atlas Copco |

Lone Star Blower and Compressor, Inc. is a manufacturer and service company for blowers and compressors along with associated control systems with locations around the world. Products include the GC-Series centrifugal compressors, GB-Series single stage geared turbo blowers, DT-Series of gearless turbo blowers, MC-Series multistage turbo blowers, and CS-Series Control systems. Lone Star also services and supports other brands along with a large rental fleet.

Industries served include Water and Wastewater, Power, Petro-Chemical, Oil and Gas, Mining, and many others using compressed air or gas, in pressure or vacuum applications.
